Hy Tech is an exclusive product featuring unique characteristics: ecological, efficient and stylish. It is the result of the collaboration between Papernet and one of the most famous Italian product designers, Stefano Giovannoni.

Minimalist: its minimal design and lines make the product unique and harmoniously adaptable to every environment.

Solid: the use of extremely hard plastic material such as ABS and the compactness of the forms guarantee resistance, reliability, safety and durability.

Ergonomic: the forms make daily use and ordinary handling of the product

extremely simple. Smooth surfaces with no sharp corners facilitate cleaning and hygiene.

Eternal: its style and traits are modern and designed to last.

Harmonious: the lines and proportions flow in balance with the surrounding environment.
